# Evergreene Homes Standard Features

## THE GOLD FINISH PACKAGE

### ATTENTION TO DETAIL

#### Distinctive Exteriors

- 2 x 6 Framed Exterior Walls with Poured Concrete
- M/I Brand Vinyl Windows Low E Glass with Contoured Grids
- CertainTeed Landmark 30 Year Architectural Shingles
- James Hardie 8.5" Color Plus Siding
- Masonite Fiberglass Entry Door w/ Schlage Handle & Lock
- Stone or Brick Front Water Table (Per Plan)
- Amarr Insulated Garage Door (Per Plan)
- Garage Door Opener w/ 2 Remote Controls
- Designer Kichler or Maxim Brand Lighting Fixture Package
- Hose Bibs & GFI Outlets - Front & Rear
- 36" Concrete Leadwalk
- Beautifully Appointed Exterior Features

#### Elegant Interior Features

- Interior Floorplans Designed to Maximize Natural Light
- Ceiling Heights: Basement - 9', 1st Floor - 9', 2nd Floor - 9'
- Upgraded Gourmet Kitchen Layout
- Deluxe 42" (Upper) Cabinets & Hardware
- Moen Designer Kitchen Faucet
- Soft Close Doors and Drawers (Dovetail) Throughout
- Granite / Quartz Kitchen Countertops
- Fridgidaire S/S Appliances with Oven/Microwave Combo
- Classic Oak Stairs and Handrails From Main to Upper Level
- Shaw Hardwood Flooring - Majority of 1st Floor
- Decorative Colonial Trim Package
- Coffered Ceiling: Family Room
- Boxed Ceiling: Owners Bedroom (if 2nd Floor)
- Heatilator/Heat N Glo Fireplace w/ Slate Surround
- Home Wiring with 3 Internet, Cable, and Phone Connections
- Sherwin Williams Brand: 3-Toned Interior Paint
- Abundant Recess Lighting (Per Plan)

#### Appointed Owner's Bath

- Granite / Quartz Vanity Countertops - Owner's Bath
- Separate Shower. Kohler Soaking Tub (Only Per Plan)
- Ceramic Floor & Wall Tiles (various sizes)
- Moen Quality Fixtures & Bath Hardware
- Sterling Elongated Toilets

#### Attention to Secondary Baths

- Pedestal Sink w/ Decorative Mirror in Powder Room
- Ceramic Floor & Wall Tiles (various sizes)
- Cultured Marble Vanity Countertops - Secondary Baths
- Sterling Vikrell 5' Tub/Shower
- Moen Quality Fixtures & Bath Hardware
- Sterling Elongated Toilets

#### Energy Efficient Features

- H.E.R.S. Rated Home (Including a Blower Door Test)
- Energy Star Appliances
- LED Energy Efficient Bulbs (excluding fan/light combos)
- Major Name Brand Furnace, 92% Energy Efficient, 15 SEER A/C
- Honeywell Programmable Thermostat (1 Per Zone / Per Plan)
- Aprilaire Humidifier (Lower Zone)
- R-49 Attic Insulation, R-21 Exterior Wall Insulation
- Housewrap, Taping & Poly Seal Program
- Quick Recovery "Power Vent" Water Heater (If Gas Std in Home)
- High Efficiency Electronic Air Cleaner
- 2 x 6 Framed Exterior Walls
- Passive Radon System

#### Warranty

- 1 Year Material & Workmanship / 2 Year Mech Warranty
- 10 Year Structural & Transferable Warranty

Availability, selections and pricing are subject to change at any time without prior notice.

## EVERGREENE ENERGY EFFICIENCY

It is quite easy for a Builder to claim that they build an energy efficient home, but much more difficult for most Builders to substantiate that claim with hard data. What separates Evergreene Homes from our competition is that we can clearly demonstrate, with 3rd party verification, that each and every one of our homes is truly an energy efficient home. We do this by testing and ranking energy efficiency with a nationally accepted protocol so that each home can be fairly compared against others. This is what we call The Evergreene Difference.

To understand how our homes are evaluated, it is first necessary to understand the HERS (Home Energy Rating System) Index. The HERS Index is a scoring system created by the Residential Energy Services Network in 2006. In this system, a home built to the specifications of the HERS Reference Home (based on the 2004 International Energy Conservation Code) scores a HERS Index of 100, while a net zero energy home scores a HERS Index of 0. The lower the home's HERS Index, the more energy efficient it is.

Each 1-point decrease in the HERS Index corresponds to a 1% reduction in energy consumption compared to the HERS Reference Home. Thus, a home with a HERS Index of 85 is 15% more energy efficient than the HERS Reference Home and a home with a HERS Index of 80 is 20% more efficient.

To calculate the HERS Index for a home, the home must be reviewed, inspected and tested by an independent party known as a Rater. The Rater will conduct a number of onsite inspections, including a blower door test and a duct test. Results of these tests, along with inputs derived from an architectural plan review, are used to generate the HERS Index for the home.

Due to its reliability, the HERS Index scoring system has been widely adopted by both the private and public sectors. The Energy Star program designed by the U.S. EPA uses the HERS Index as one of its critical measurements. In Version 2.0 of Energy Star, a home is required to achieve a HERS Index of 85 or lower. By comparison, since January of 2015, the average Evergreene Single Family Home achieved a HERS Index of 55. These Evergreene Homes were 45% more efficient than the HERS Reference Home and 30% more efficient than the baseline Energy Star qualified home. To put this into perspective, for every dollar spent on heating and cooling the HERS Reference Home, the baseline Energy Star homeowner spent \$0.85 and the Evergreene homeowner spent only \$0.55.

A HERS Index Score Card is standard with every new Evergreene home and given to the homeowner after the home has been completed. Our homeowners are encouraged to proudly display these cards to show their friends and family that they have chosen to go "e-Greene." Energy Efficiency has been instrumental in helping us achieve our company goal of creating a more sustainable future – all while saving our homeowners substantial energy costs.
